

Report: Educational Outreach Activities Conducted by CSPU

Chirchik State Pedagogical University actively implements a wide range of educational outreach initiatives beyond its campus, engaging schools, communities, youth groups, and local authorities. These activities strengthen the university's social mission, expand access to education, and promote civic and cultural development.

A key outreach initiative is the event *"Individual Education – Foundation of Professionalism"*, organized by the Psychology Department. The program supported first- and second-year students by offering guidance on individualized learning and professional growth, reinforcing the university's commitment to tailored educational support.
